

WATER AND LIFE

Water and life
Ripples in the pond
Created by feet.
The movement,
Silently surrounding,
Circular in form,
Close, wet, hugging
Yet running away.
Flowing from place
Water and life.

Water and life,
So alike in purpose.
Leaves source of birth,
Driven to explore,
Startled by creatures
Renews the world.
Interspersed with nature,
Travelers in time.
Ripples waving goodbye,
Water and Life.
